

Kim speaks with authentic warmth and clarity about the realities of parenting in today's world. Our school community gathered for Kim's presentation "Simplicity Parenting" with him leading us forward with so much light and humor and compassion. Parents felt renewed in their commitment to be the "climate controls" for our households, strengthened in our dedication to simplify our lives and those of our family in order to hone in on the truly important qualities that promote love, health, safety and trust in our children. Kim is an inspiring counselor, heartfelt and humorous speaker, who is greatly valued by our school community.
